

LongCast

Cover More Water

If you're looking for a large spinner you can cast all day long without wearing yourself out, you've found it in the Mepps® LongCast. A lot of engineering went into the design of the Mepps LongCast. To begin with, every LongCast is perfectly balanced. This allows the blade to spin freely and easily, an attribute found in every Mepps spinner. Perfect balance doesn't just happen. Every component on the LongCast, from the wire to the hook, has been carefully selected and tested with the other components to assure proper balance. The LongCast's heavy bullet-shaped body takes the effort out of long-distance casting. In addition, the LongCast sinks quickly and stays very close to the bottom throughout the retrieve, making it perfect for fishing heavy current or deep water. Weighing in at 5/8 oz., the #4 LongCast is a full 85% heavier than a #4 Mepps Aglia, and it is 65% heavier than the competition. The #5 LongCast weighs 7/8 oz. It is 75% heavier than a #5 Mepps Aglia, and weighs twice as much as the competition's #5 spinner. In fact, the heavy-weight #5 LongCast is 40% heavier than the competition's #6 spinner. Give the Mepps LongCast a try. You will quickly discover you are casting farther and fishing deeper than you ever have before. In fact, you'll be able to fish water you've never fished before.
