

Trolling Rig

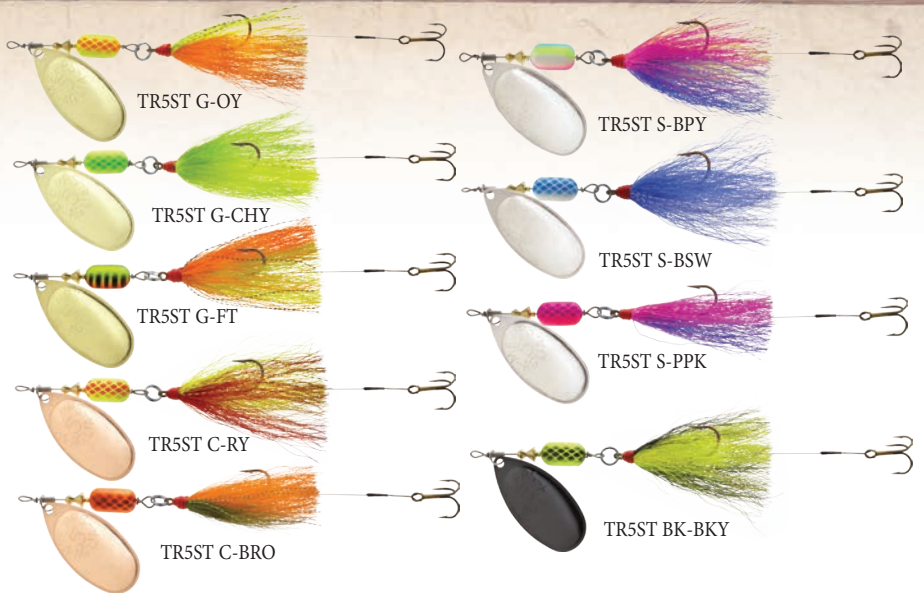

Walleye fishermen know trolling covers water and keeps them in contact with active fish. Not only is trolling one of the most productive methods for catching walleye, it's also known for producing BIG fish.

Each Mepps® Trolling Rig features: an interchangeable spiral-wound stainless steel clevis for quick and easy blade changes; an oversized, brightly-colored, floating body which produces a tantalizing, slow sink-rate and keeps the Rig gliding just above snags; and a multi-colored bucktail dressed 2/0 single hook that increases bulk and creates a "meal-sized" profile.

Plus, they're available with or without an ultra-flexible, kink-resistant 20lb. braided, stainless steel stinger cable with a loop end for easy changing of the stinger treble hook.
