XD®

Every XD® lure features a precision, solid brass fulcrum bead between the blade and body allowing the blade to spin at any retrieve speed and as the lure drops providing additional attraction. No other shaft - through - the - blade spinner offers this feature.

All XD® silver blades and bodies are plated with genuine silver creating a bright white flash that's easily seen underwater. Some blades and bodies are platinum (plaf-tee-um) plated. Platinum is a natural element that has a remarkable resistance to corrosion.

The XD® runs deeper - size for size than any other lure in its class.

XD® Plain

XD® Dressed
